 ABOUT ME

Student at Van Hien University, majoring in Software Engineering. Proficient in JavaScript, TypeScript, ReactJS, with backend development experience using Node.js, NestJS, TypeORM. Familiar with Basic Python & RAG AI. With 2 internships and 2 complete full-stack projects, I am seeking a Fresher Developer position to grow my skills and contribute to your team.

 SKILLS

Category	Skills
Core Technologies	JavaScript · React · Node.js · NestJS
Frontend	TypeScript, Redux, TailwindCSS, Bootstrap, Vite, Responsive Design
Backend	ExpressJS, TypeORM, REST API, Neon API
AI & Technologies	RAG AI, Basic Python
Database	MySQL, Basic PostgreSQL
Tools	Git, GitHub, Postman, Cross-browser Testing

 EDUCATION

2019 – Present | VAN HIEN UNIVERSITY — Information Technology · Software Engineering

- Temporary leave for military service 2024 – 2026
- Expected graduation: 2027
- GPA (as of 2024): 3.28 / 4.0

WORK EXPERIENCE

Dec 2022 – Feb 2023 | LAI DON | Node.js Intern

- Supported UI development with SAPUI5, integrated SAP system data
- Built & tested APIs using Node.js, documented development processes

May 2022 – Aug 2022 | Center of Talent AI | Frontend Intern

- Developed AI-integrated product recognition website using ReactJS + TypeScript
 - Designed UI/UX, integrated TensorFlow ML model into frontend interface
 - Technologies: ReactJS, Redux, TypeScript, TailwindCSS
-

PROJECTS

Nov 2025 – Jan 2026 | HEALTH-DATA — Fullstack Developer (Solo)

- User management system: authentication, authorization, CRUD operations
- Built responsive UI, optimized page load speed
- Technologies: ReactJS (Vite), JavaScript, TailwindCSS, Neon API
- Demo: <https://healthdatad14.vercel.app/>
- GitHub: <https://github.com/dinhnguyen321/healthdatad14>

Feb 2023 – May 2023 | SPORTS-ZONE — Fullstack Developer (2-person team)

- E-commerce platform: product catalog, shopping cart
 - Built backend with ExpressJS, integrated REST APIs with frontend
 - Ensured cross-browser compatibility & mobile responsiveness
 - Technologies: ReactJS, React-Bootstrap, ExpressJS, MySQL
 - Demo: <https://sports-zone.vercel.app/>
 - GitHub: <https://github.com/dinhnguyen321/client-store-page>
-

CAREER OBJECTIVE

- Short-term: Apply frontend/backend skills to real-world projects, master software development workflows, and gain professional teamwork experience.

- Long-term: Become a professional Fullstack Developer, combining modern web technologies and AI to build high-value applications.
